GOOD BANK STATEMENT MAKES STRONG WARKET

Expectation of Easy Money Generally Voiced.

INDUSTRIALS THE FEATURE

and Sugar Advance-Texas Pacific and Wabash.

NEW YORK, Oct. 25 .- The Stock Market today opened dull, but strong, and continued strong throughout the session with an accession of fair activity after a good bank statement appeared.

The showing of the banks was generally expected and was the influence all the morning. Traders expressed confidence in the continuance of easy money. There was also the suggestion that the market has been oversold in the past

The disposition of active operators was toward the industrial list, which is generally regarded as having failed to make adequate response to the prosperity of manufacturing industry and trading. Colorado Fuel and Consolidated Gas had good advances. Other strong issues were Pressed Steel, Sugar, New York Air Brake, and United States Cast Iron Pice.

The advances in the railway list were moderate. Exceptional strength was shown by Texas Pacific and Wabash.

Jruge Bruce, the judge of the Middle District of Alabama, died yesterday. There is going to be a very hard scramble for his place. I saw ex-Governor T. G. Jones yesterday, as I promised, and he is willing to accept the judgeship of the Middle District of Alabama. I am more convinced now than ever that he is the proper man for the place. He has until recently been president of the Alabama State Bar Association. He is a gold Devocrat, and is a clean, pure man in every respect. He stood up in the constitutional convention and elsewhere for a fair election law, opposed lynching, and has been outspoken for the education of both races. He is head and shoulders above any of the other persons who I think will apply to you for the position.

TO MAKE THE A-RAT HARRESS.
London Gobe.

It is well known that the application of Roentgen rays to the skin sometimes produces ulceration, but, according to a Swiss authority, this is not the case when the rays are produced by what are called by electricians "influence machines." It has also been shown by M. Demerline that Roentgen rays produced by alternating currents of high frequency and high voltage are harm-less to the skin, and even curative. The Roentgen ray tube is connected by its cathode to an Ondin resonator, and its anode is left free or else connected to earth. Such tubes can be brought quite near the patient (according to "The Relectrician"), and hence there is no loss in the penetrating power of the rays.

"Prince," his big collie house dog, which, it is alleged, went on a rampage Saturday, the day the lone wolf escaped from the Zoo, must be found and shot, "Prince" is said to be responsible for the misdeeds at first attributed to the wolf. The Admiral vesterday gave instructions to T. W. Ogden, his man-ofall-work, to shoot the collie on sight Ogden purchased a rifle and, returning home, prepared to give the dog a warm reception. Up to noon, however. "Prince" was still at large, and residents in the neighborhood were still in a state bordering on a panic.

land's gardener, and the Jackson children who were bitten either by the dog or the wolf which escaped from the Zoo are all doing well, and none has as yet shown any signs of hydrophobia.

The wolf, which escaped the day "Prince" ran amuck is still under treatment at the Zoo Park, but will probably be killed and its skin stuffed. The animal was badly wounded in the leg, and will be lame for life even should it recover. The Zoo officials say that Admiral Dewey's collie is responsible for all the excitement and damage believed to have been occasioned by the wolf.
